

# SWRInstitute Technical Meeting 'Call for Speakers' Application

*Thank you for your interest in presenting at an SWRInstitute upcoming technical meeting, we really appreciate your support!*

**Process:** Once headquarters has received your application you will be placed on the 'Potential Presentations' spreadsheet. If the Program Planning Committee decides to pursue your presentation you might be asked to give additional information. As a general overview, it is the committee's intent to format each conference with a balanced cross section of topics and member presenter classifications.

Once decisions are made and if your presentation is accepted, we will contact you when necessary to begin the planning process. Please note that over the years we have developed a backlog of prospects. As such, we try to plan based upon first in first out. With this in mind, there may be a time delay between your volunteering and actual presentation date. During such time, you can contact us anytime to obtain an update. As always, we thank you again for your assistance in ensuring that the Institute remains the primary technical resource and leader in our industry.

- 45-minute Presentation
- Project Showcase Presentation
- Either Project Showcase or 45-minute Presentation

*Name and Company of all Presenters*
