Sika Emseal's highly regarded training programs have now been compiled into a comprehensive seminar on expansion joints. Design, types, failure analysis, and installation are covered in training by our executive and technical team.

The program has been validated by the [SWRI Institute](#). The Sealant Waterproofing and Restoration Institute sets the standard for practice and business conduct in its encompassed fields.

The training program is registered with the AIA (American Institute of Architects). Participants who complete the course will earn 8 HSW learning units.

Emseal's seminars are known for their emphasis on education, technical content, and interactive hands-on learning method. Trainers include our executive, technical and sales team members who will keep you engaged, entertained, and ensure you leave with a comprehensive understanding of both the issues that affect joint sealing and your role in delivering trouble-free expansion joints.

This training includes fire-rated, non-rated, vertical and horizontal expansion joints as well as Below Grade (BG), RoofJoint and split slab applications.

Training is reserved for contractors, architects, engineers, consultants and Emseal distributors and representatives.
