

OSHA Contacts:

Bill Matarazzo, Tina Jones & Sharease Giddins

On the Road to Preventing Struck - By Incidents and Fatalities in the Construction Industry

- Tim Irving, Communication & Social Media - encouraging to follow OSHA in social media.
  - Mental Health updates.
  - Fraudulent OSHA 10 & 30 training.
  - ACCSH Work Groups
    - Emerging Technology
    - Work one
    - Health in Construction
      - Suicide number is 988, instead of 911.
      - 267 death by suicide in the workplace.
      - AFSP and Bechtel Corp, donated 7 Mil to the foundation to provide critical resources and programming for 500,000 workers.
  - Construction Working Minds
- OSHA just transitioned to Safety Helmets, we are not expecting everybody to do this. No intention of updating the standard, no citations, UNLESS, situations where the job site was not evaluated properly.
- Updated Severe Violator Program
  - Region 1, New England area, they have a criminal investigator.
- National Stand Down to Prevent Struck by April 15th to 19th.
- National Safety Stand Down, May 6th to 10th, Premiere Partners, Falls Stand Down, reach to your

contact if you want to be a part of the premiere group.

- Doug Parker, Acknowledging our new and renewed Alliance members.

- 5,000 fatalities in 2022, more than 1,000 where in construction. Seven percent are women.

- One of the goals of the administration is to have a good job, the construction industry can help in that aspect.

- Areas do focus:

- Work Zones

- Defensive driving.
- Cell phone usage while driving.

- Mental Health

- 8 workers per 100K dying from work related injuries.
- No industry has a higher suicide rate than construction.
- Recognize the alliance with Suicide Foundation.
- How can we ask more from our alliances, how we can we reach more people to make an impactful change.
- Engage in the Worker Memorial event, April 22 to 25th.

- Brian Seedmore, Directorate of Construction Update
