**FOUNDATION NEWS**

**SWR INSTITUTE IS PLEASED TO ANNOUNCE THE 2020 SWR FOUNDATION SCHOLARSHIP WINNERS**

The SWR Foundation was established in 1999 to provide educational scholarships to assist and encourage promising young adults who are pursuing careers in our industry. Since the start of the SWR Foundation, it has given away $72,000+ in scholarships to 57 deserving students.

The Foundation Board of Directors had the difficult job of choosing the winners from among 15 very impressive scholarship applications. We would like to thank everyone who applied for a scholarship and congratulate those who were selected this year. We are very grateful to our 2019 Foundation Donors! Your generosity made these scholarships possible.

**FUTURE LEADERS GRANT PROGRAM**

The Future Leaders Grant Program was started to provide students with funding to attend one of SWR Institute’s Fall Technical Meetings in order to give them more exposure to our industry. Due to the cancellation of the 2020 Fall Technical Meeting, a grant will not be awarded this year. Next year two lucky recipients will receive a travel grant to attend our 2021 Fall Technical Meeting in Nashville, TN.

Our two grant awardees will receive:
- Waived meeting registration fee
- Waived cost of room and tax at the meeting hotel for up to three nights
- $600 to cover other travel expenses (flight, ground transportation, meals, etc.)

**WILLIAM GRADY**
SUNY Polytechnic Institute
Bachelor of Science in Civil Engineering

**TYLER KLEINSASSER**
South Dakota School of Mines and Technology
Master’s degree - Construction Engineering & Management

**RYLAN LEISCHNER**
South Dakota State University
Bachelor of Science in Construction Management

**RILEY MORRIS**
Clemson University
Master of Science in Historic Preservation

*“Receiving this scholarship and starting my summer internship with Arts Construction in the same week has greatly increased my desire to dive head first into the world of restoration. Being in a place such as Charleston, where every other house is not only historic, but is in need of repair, has made visible not only the opportunities that are in front of me, but the importance of continuing on with my educational endeavors. Stepping out of this stage of education in the next few years, and being an ‘educated artisan’ will set a crucial foundation so that I will know how to correctly and accurately restore structures wherever I may be.”*  
- Parker Sturtz

*“This fall I will be working on campus for the university. This grant will allow me to spend more time studying and learning the construction trade and will reduce the financial burden of the cost of college by covering a percentage of my tuition.”*  
- Julian Read
